Getting Started with Palmoil.io

**1**   Go to **https://palmoil.io/dashboard**

ℹ️ The Palmoil.io Dashboard provides you with an overview of your company's data along with shortcuts to maximize your experience. Let's get started!

My Company

2   To see your company's dashboard, click on "View Company Dashboard"

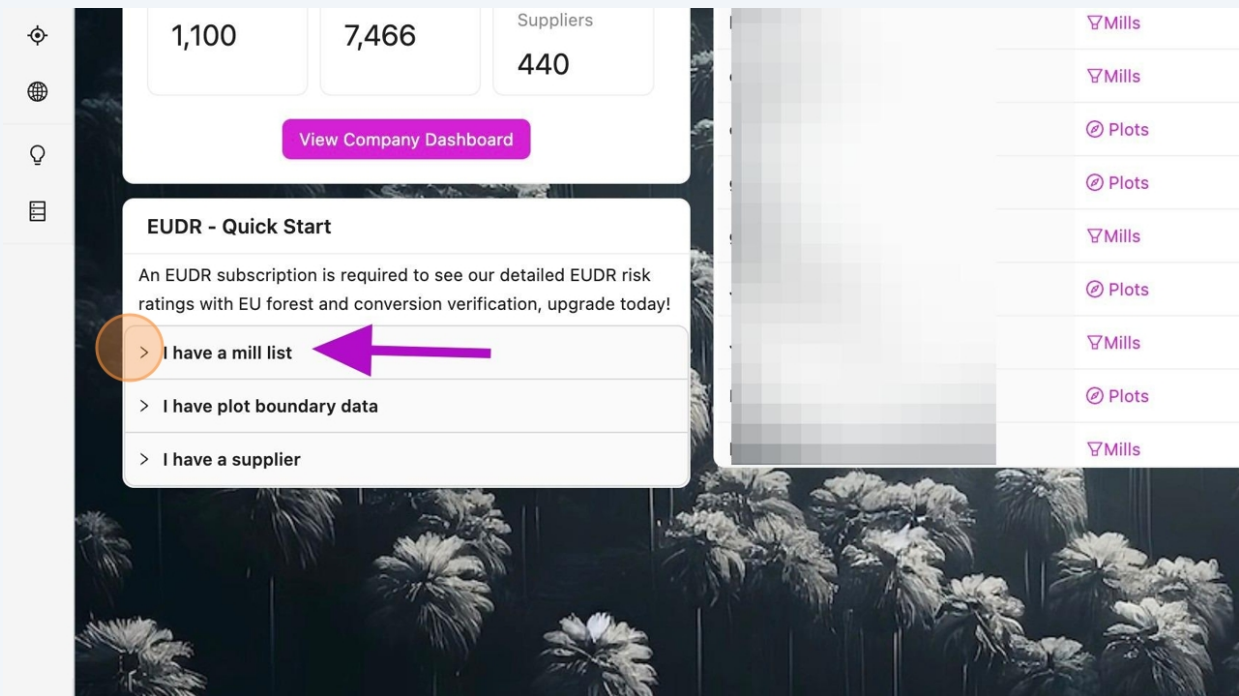

EU Quick Start

> ⓘ   An EUDR subscription is required to see our detailed EUDR risk ratings with EU forest and conversion verification, Please contact us if you would like a free trial
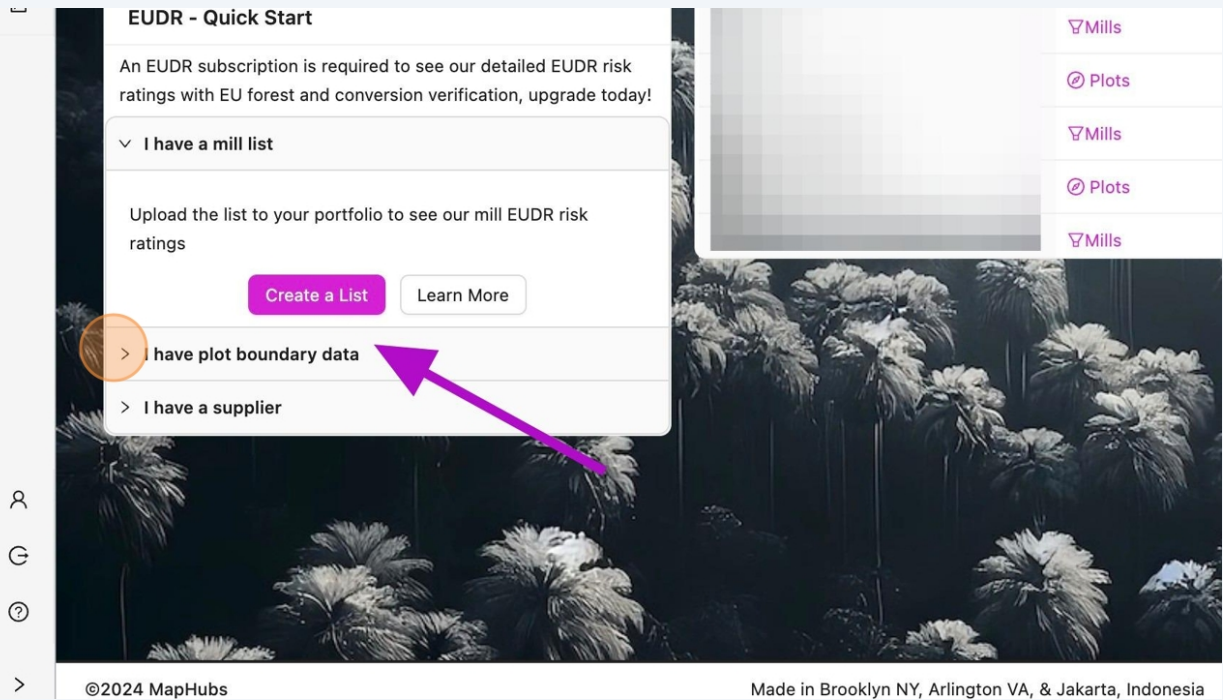

3 If you have a mill list and you want to use Palmoil.io data to check for EUDR compliance risks, click on "I have a mill list" on the EUDR - Quick Start and it will direct you to our **Mill List Upload**

ℹ️ Mill list upload allows you to privately check a mill list for deforestation risks, grievances, and our expert-reviewed Risk Insights.
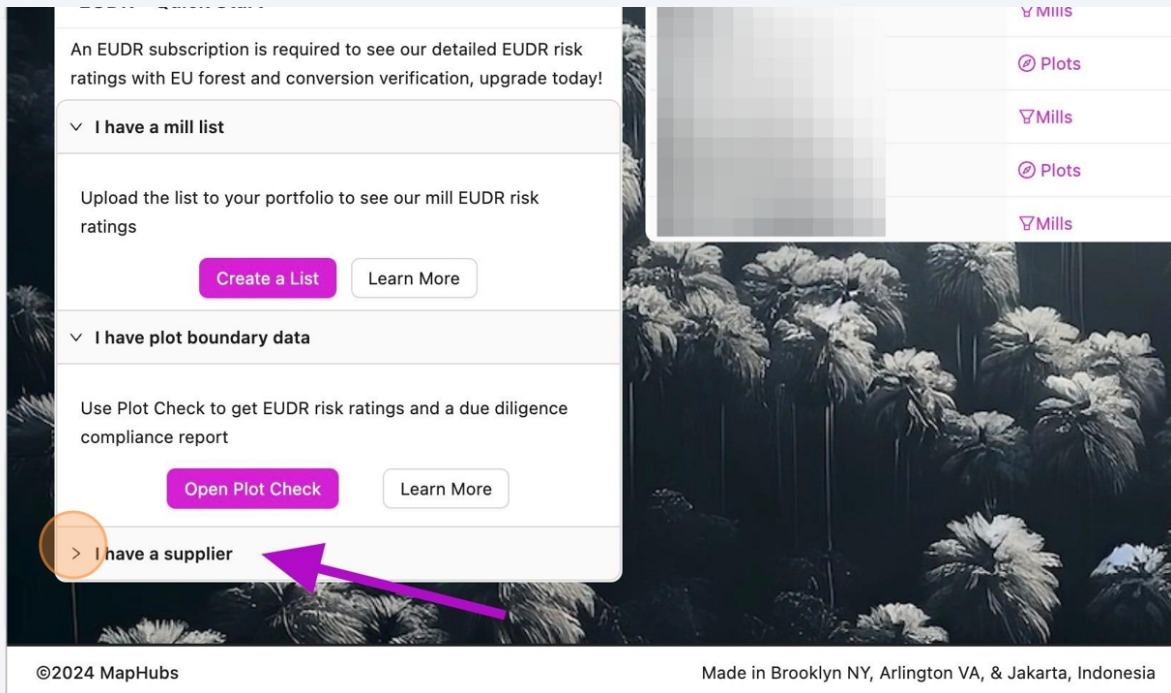

4 If you have boundary data and you want to check it against Palmoil.io database to start preparing for EUDR, click on "I have a plot boundary data" on the EUDR - Quick Start and it will direct you to our **Plot Check**

Your data remains private, boundaries are not uploaded to our servers. Please contact us for more information about the security and privacy features of Plot Check.

5 To search our company database for your supplier, click on "I have a supplier" on the EUDR-Quick Start and it will direct you to **search for a company**

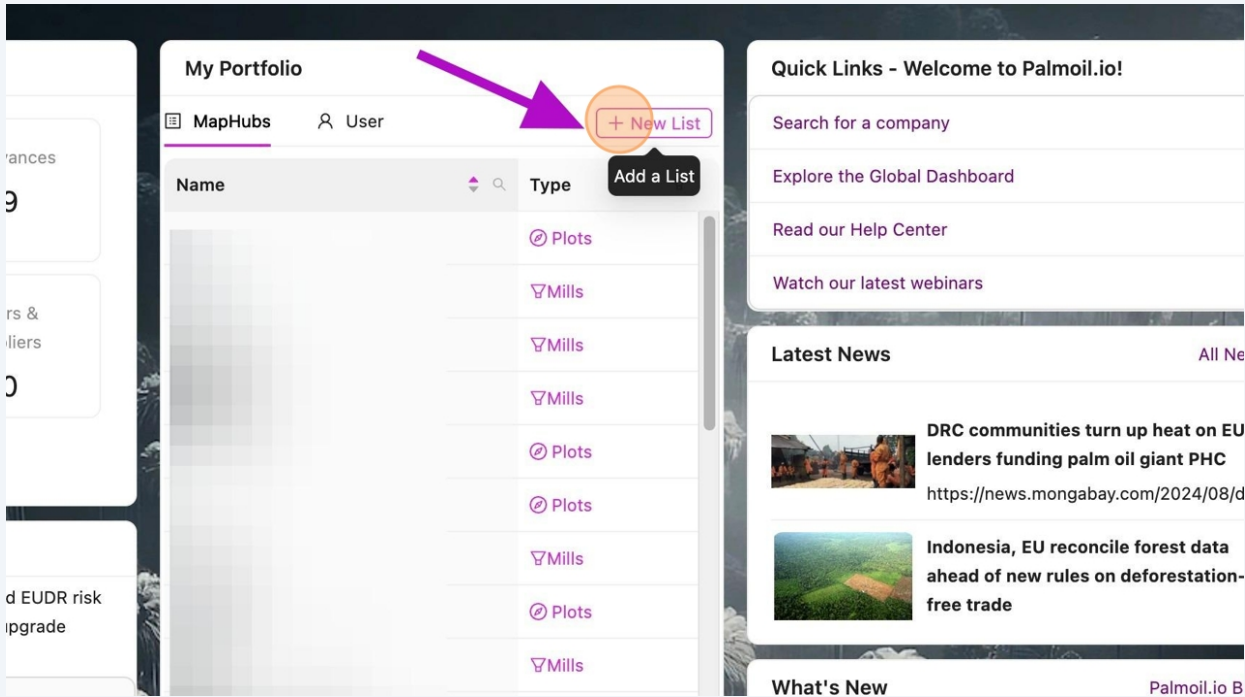

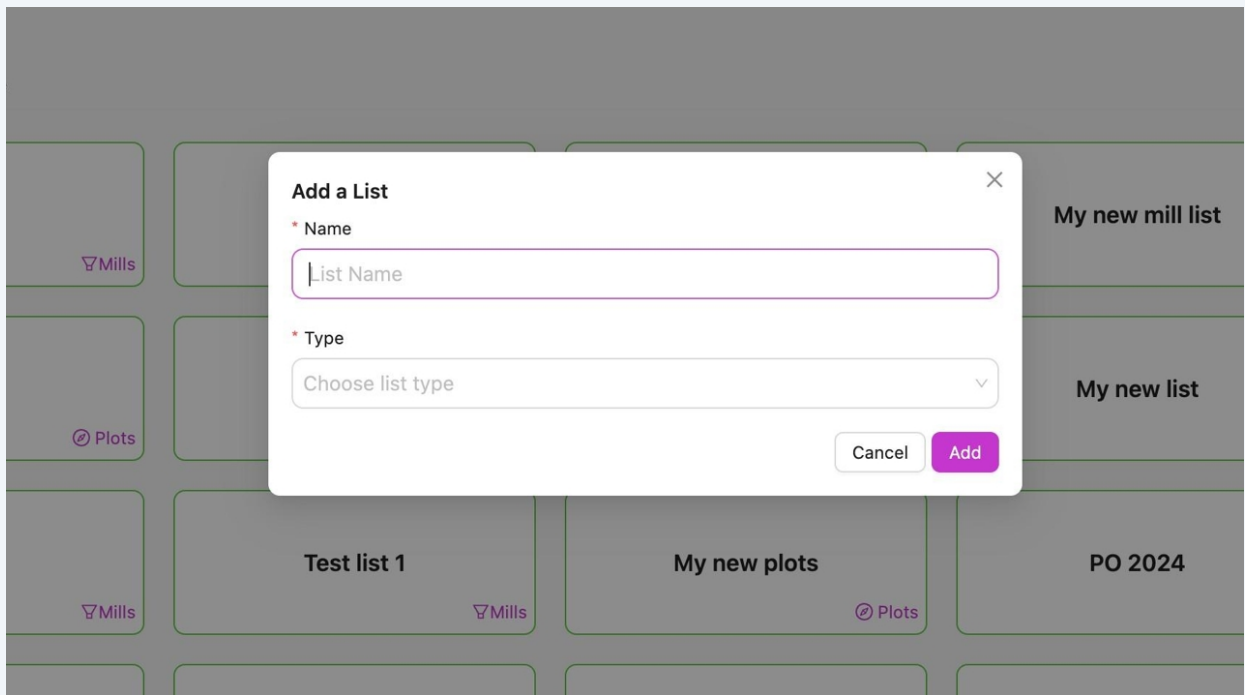

My Portfolio

You can save content in Palmoil.io into lists in a private portfolio. This includes mills, plots, companies and more. You can also upload your own mill or plot list.

The portfolio creates a custom monitoring dashboard, that includes all of the associated data from Palmoil.io.

6   To make a portfolio, click on "New List"

7   Enter a name and select the type

8

Next you can click the star icons on Palmoil.io pages or in the tables to save content to your list
